An artist's impression of a modern resort entrance. A large, dark wooden structure with a wide, overhanging roof supported by a single thick black pillar dominates the scene. The roof is illuminated from within, casting a warm glow. On the wooden wall, the 'Arvind GREATLANDS' logo is displayed in white. To the right, a small, square, light-colored guardhouse with large glass windows stands on a paved area. In the foreground, there's a landscaped area with tall grasses and a small fountain with several jets of water. The background is filled with lush greenery and trees with pink flowers under a clear blue sky.

GREATLANDS

Own the resort life.

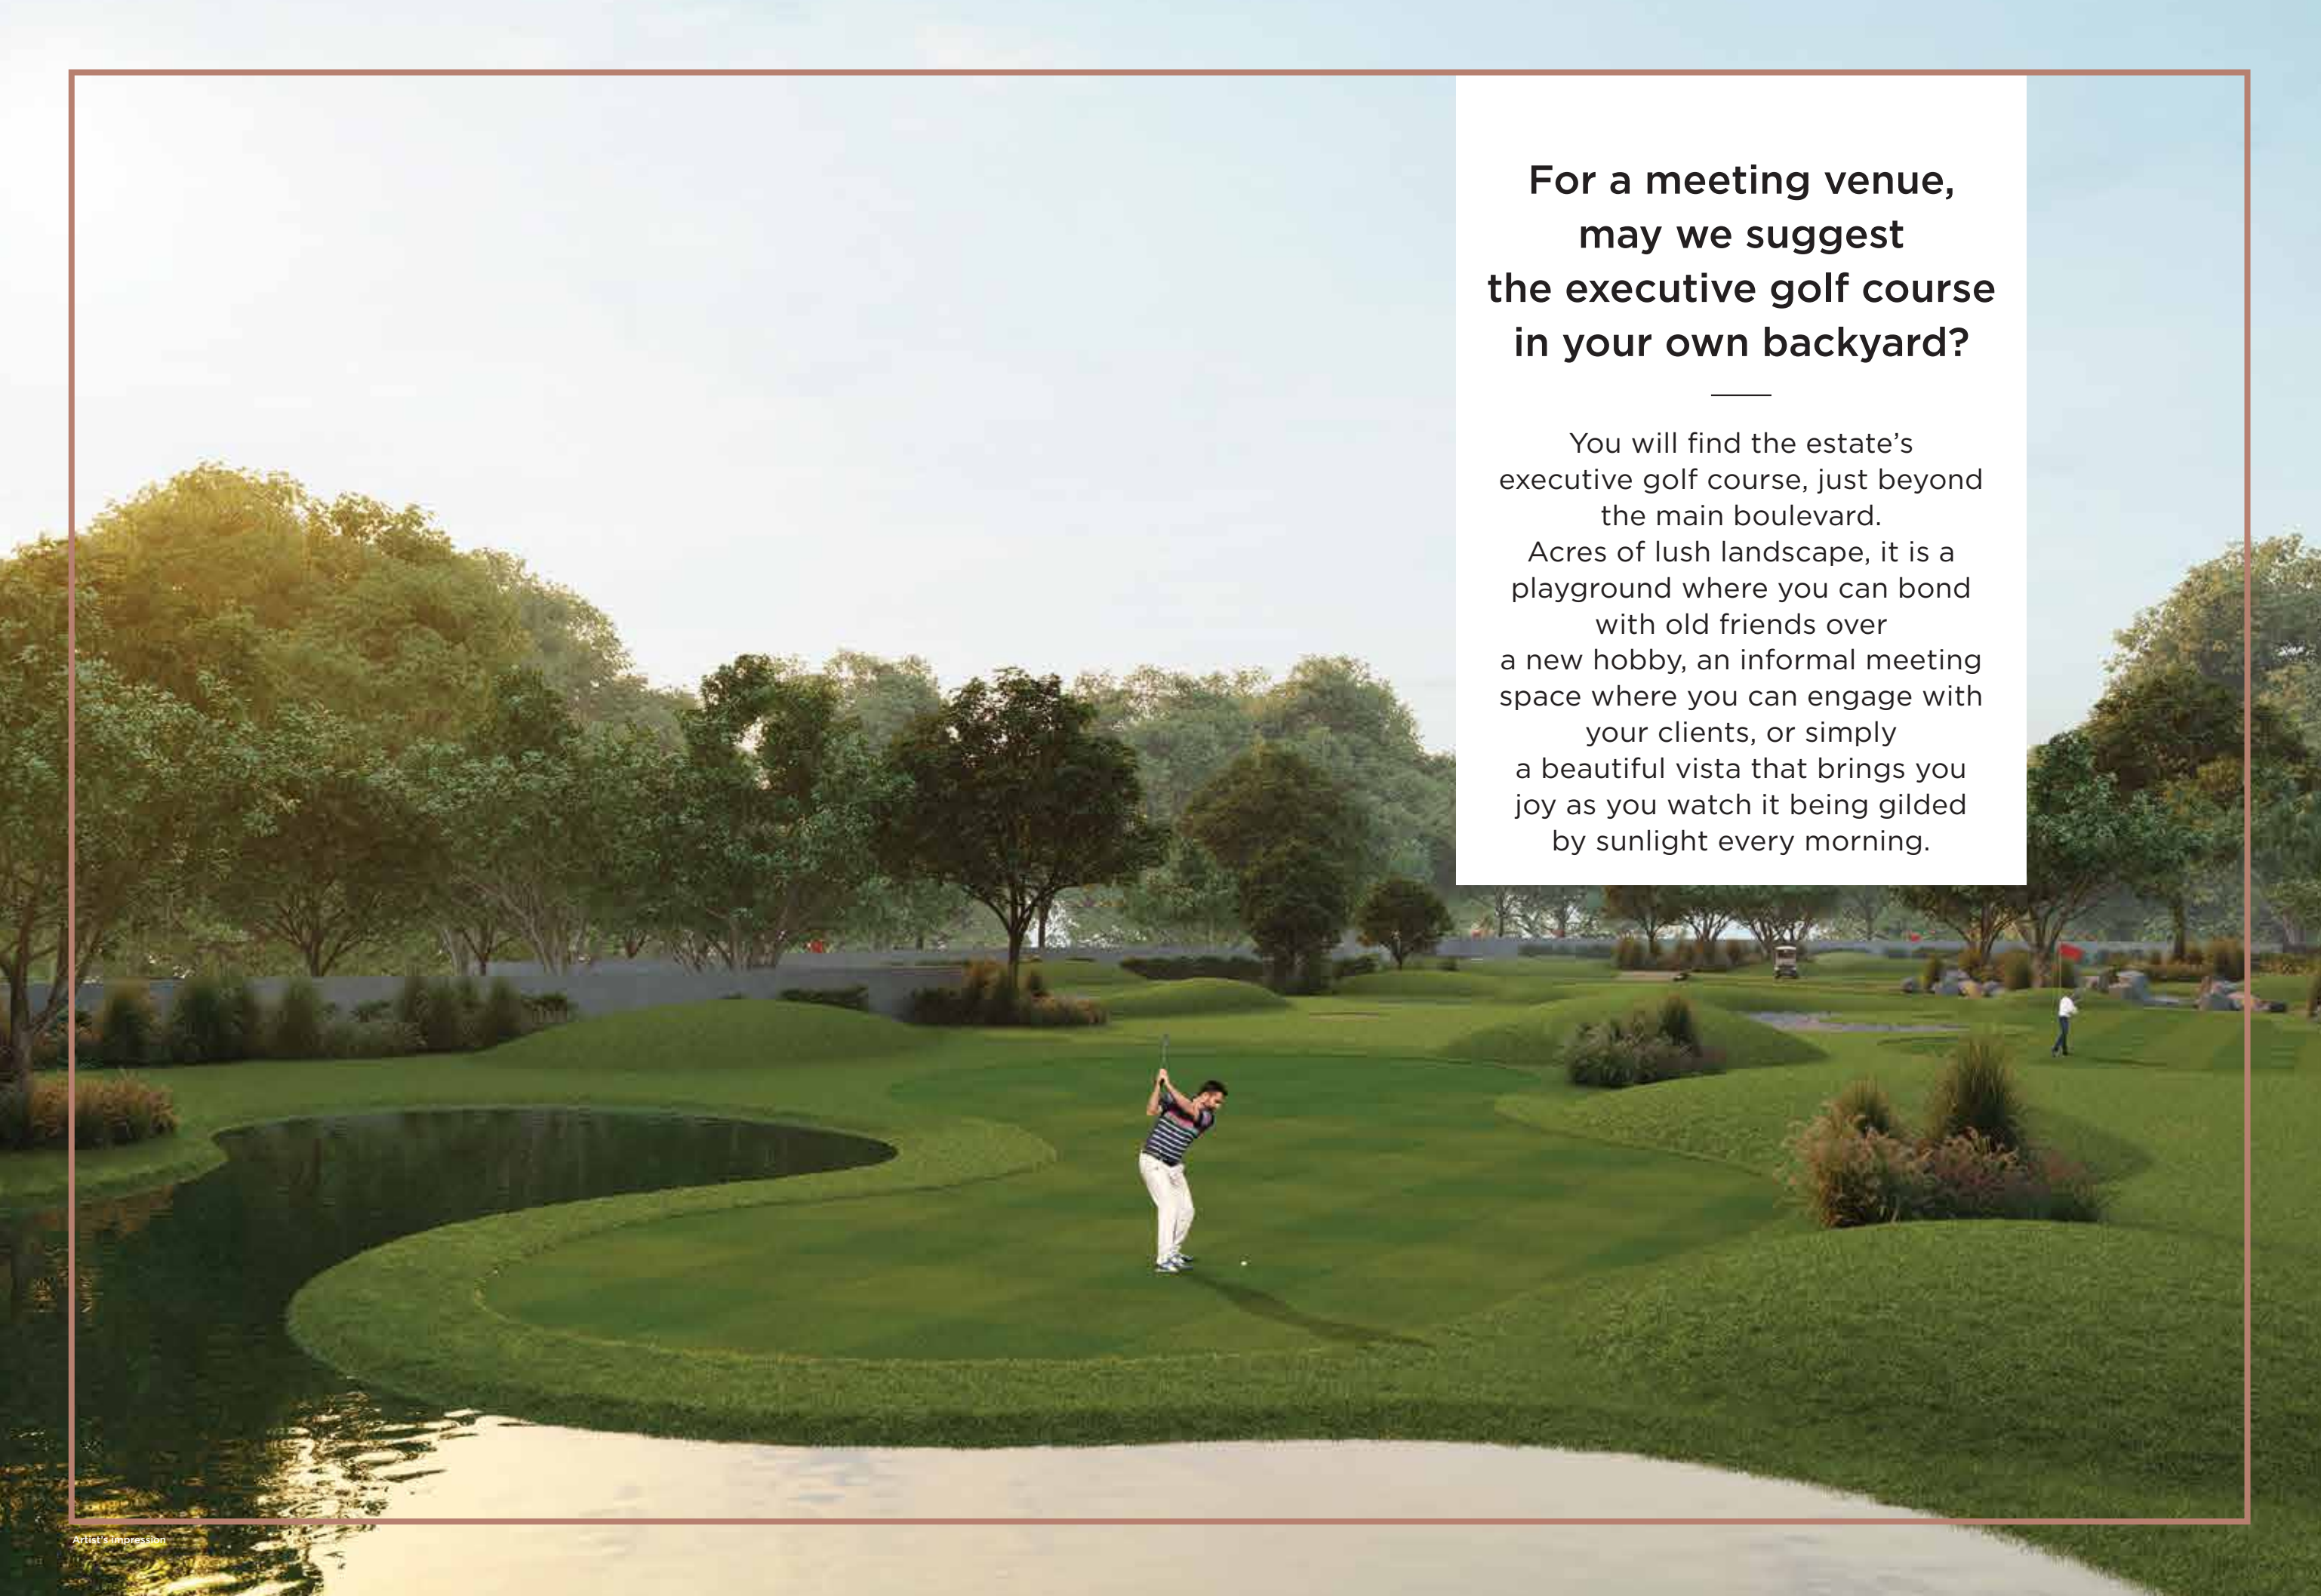

**The lifestyle of a resort.
The luxury of
a bespoke villa.**

Waking up to sunlight cascading over the golf course. The joy of picking fruit in your own garden. Dinner parties that sparkle with starlight and conversation. And the pride and nostalgia one feels when you can give your children a place to play amidst trees. At Arvind Greatlands you can build your private villa, your way, in a vast landscape bejewelled with a multitude of amenities. Welcome to paradise. You can call it home.

**Build your private villa,
your way.
We'll provide the view.**

There are few joys that compare with building your own villa, precisely how you want it. Whether you want a Tudor mansion or a modern cubist masterpiece, we've provided the perfect landscape for you to build a dream on.

A wide-angle photograph of a golf course during the golden hour. In the foreground, a golfer in a striped shirt and white pants is captured mid-swing on a green. To the left, a dark pond reflects the sky, with a sand trap in the immediate foreground. The background is filled with dense, green trees under a clear, light blue sky. The entire scene is framed by a thin brown border.

**For a meeting venue,
may we suggest
the executive golf course
in your own backyard?**

You will find the estate's executive golf course, just beyond the main boulevard.

Acres of lush landscape, it is a playground where you can bond with old friends over a new hobby, an informal meeting space where you can engage with your clients, or simply a beautiful vista that brings you joy as you watch it being gilded by sunlight every morning.

The estate flaunts vast
greenspaces. But there's
something special about
one you can call your own.

Sensory landscaping to allure you outdoors.

Devanahalli.

The thriving hub that is home to this serene estate.

Within its gates, Arvind Greatlands is a vast landscape far removed from the noise and bustle of the city. And yet, its location is one of the most connected hubs in Bengaluru with prime schools, hospitals and entertainment spots just a swift drive away.

While it is steeped in history – with ancient forts and temples – Devanahalli is also a significant part of Bengaluru’s future. The locality has emerged as one of the most desirable addresses for company headquarters and residents alike. The estate is close to the international airport and will have several landmark infrastructure projects within a 20-minute radius.

—
20-min away from the international airport.

—
Near key upcoming projects such as the IT investment region, a major business park, an aerospace park, and the Ring Road.

—
Easy access to major hospitals, schools and prime locations within the city.

We are Arvind Smartspaces.
And we're here to raise the standard
of design in real estate.

At Arvind Smartspaces, we combine the innate design sense that is in our DNA, with the power and credibility of an industrial house. This allows us to institutionalise our high design standards, and deliver them consistently, with scale and on schedule.

Since our entry into the real estate industry in 2009, we have developed over 19 million square feet of real estate. Our projects have not only met our customers' needs, but raised their expectations for how much a home can enhance their lives. We believe a good design - which raises both the level of aesthetics and living - should be accessible to all. Our aim is to create a positive impact by bringing this standard of design thinking to all customers, not just a select few.
